

PRESS RELEASE

9 May 2016

Sixth consecutive month of records for Eurotunnel Le Shuttle Freight

With more than 139,200 trucks transported during the month of April 2016, the Eurotunnel Freight Shuttle service carried its highest April traffic since the start of commercial operations in 1994. This is the sixth month in a row that a record has been set and the month of April 2016 was also the third best month ever for the Le Shuttle Freight traffic, behind March 2016 and March 2015.

Jo Willacy, Eurotunnel Commercial Director stated: « *Truck drivers arriving at our Coquelles Terminal in France access an enlarged, comfortable and secure site. Our customers prefer to travel with us because of the facilities we offer and because of our capacity to manage these historic traffic levels* ».
